

Wild Loops

Wild Loops is a handwritten typeface for wild ideas. Inspired by the marker sketches and graffiti on the walls, the font speaks to a young audience and looks a bit crazy with its stretched Ascenders and Descenders. At the same time, the font is elegant and will work well for invitations, greetings, clothing brands and jewelry.

The typeface includes 972 glyphs and supports up to 104 languages.

Handwritten typeface for wild ideas

The main feature of the font is a smart Contextual Alternates that substitute different versions of letters depending on its position in the word (at the beginning, middle, and the end of a word), which makes the writing more natural.

here. Know that we have divided it three our kingdom: and tis  
our last intent to shake all cares and business from our age;  
Conferring them on younger strengths, while we Unburthen'd crawl  
toward death. Our Son of Cornwall, and you, our No less lov'd  
Son of Albany, we have this hour a constant will to publish  
our daughters' several dowers, that future strife may be prevented  
now. The Princes, France and Burgundy, great rivals in our  
youngest daughter's love, long in our court have made their  
amorous sojourn, and here are to be answer'd. Tell me, my daughters,
